

## YOU'RE LOOKING FOR A LONG-TERM CAREER AT A GREAT COMPANY?

We provide mills with unique solutions for paper and board drying, tissue drying, energy efficiency, and building ventilation. We take pride in offering the highest quality products with innovative engineering, design and manufacturing.

As an equal opportunity employer, ENERQUIN offers a unique working environment where challenges, responsibilities and teamwork make each employee fulfill their professional objectives while contributing to the company's success.

We're currently seeking a full-time Technical Designer to join our Design Team, located at our Montreal office. This position will be responsible for general arrangement drawings and detail drawings.

We'd love to hear from you if you have:

- 1 to 5 years of relevant experience. Experience in industrial air systems or the pulp & paper industry is considered an asset.
- Bilingual French & English (spoken and written)
- Advanced knowledge of Inventor, Autodesk, AutoCAD & Microsoft Office
- Must be available to travel in Canada as well as outside of the country
- Ability to work independently as well as in a team environment
- Show a sense of responsibility
- Ability to manage priorities and work quickly with tight deadlines
- Be very flexible and able to work under pressure
- Be enthusiastic, dynamic, professional, and diplomatic
- DEC in design/drafting or equivalent
